

How to identify the Lego Simpson's Minifigures Guide

How to identify the Lego Simpsons MiniFigures?

Well, I have the complete guide below to hopefully help you and get you heading in the right direction. I have added a printable version for you when you are in the shop's having a good old feel of Lego's foiled bag's.

Why are these figures so Special?

The Simpson's Lego Minifigures series is going to be one of the hottest collectible items there pretty much is to own. These are to be released in Conjunction with the 25th Anniversary edition of the Simpson's series.

How will this guide help?

I have identified each Simpsons Lego Minifigures most unique feature to feel for below.

I have been collecting Lego for a very long time and after recently completing the Lego Movie Figure's Series, I thought I would pass these tips and advice on to help other fellow Lego Fans. I would seriously suggest carrying this Minifigure guide with you, so you too can collect the figures within no time at all and hopefully, this will save you some money.

This guide relies on you feeling for a little while each foil bag, but If, you identify a few of the pieces you will soon know who you have inside the foiled packing.

The Technique

Firstly, be prepared and carry this guide.

Secondly, Shake those bags until every piece makes its way to the bottom of the bag. Then you will begin to feel each piece until you identify the unique features, which I have listed in the ***How to Identify the Lego Simpson's Minifigures Guide***.

Homer Simpsons Lego Minifigure

How to Identify Lego Homer Simpson

Unique Features to Identify

1. The Doughnut, this will feel like a small round, but slightly thick in shape, This is certainly one you will have to shake the bag for.
2. Homer is the only figure to have the small rectangular brick, Once you have this you will clearly have identified his mobile phone.

Homer's head is a similar shape to Grampa's, so don't get confused and take your time. If you are uncertain, check he does not have the spikes for hair on top of his head.

Marge Simpsons Lego Minifigure

How to Identify Lego Marge Simpson

Unique Features to Identify

1. The Hair, That's really simple to feel for its long and has bobbles on it, you should easily identify her through this piece alone.
2. The Bag, If you really want to be certain, check for the bag and feel for the round handle, Marge is the only with a small kettle bell bag.

Bart Simpsons Lego Minifigure

How to Identify Lego Bart Simpson

Unique Features to Identify

1. The Hair, You will be looking for the Spiked head piece in this bag.
2. The Scate Board, Well, I think this is going to be by far the most identifiable piece in Bart's Minifigures foil bag, just feel for the board and wheel's.

Lisa Simpsons Lego Minifigure

How to Identify Lego Lisa Simpson

Unique Features to Identify

1. The Saxophone, Once you have your finger's on this you will know, just feel for the shape.
2. The Body, Lisa has a frilly piece around the bottom of her body, Run you finger's around each body to identify this piece.

Maggie Simpsons Lego Minifigure

How to Identify Lego Maggie Simpson

Unique Features to Identify

1. The Bear, Feel the bag, this will be harder to identify but the bear's head and arms will certainly give the additional piece away for sure.
2. The Hair, Now Maggie has the same hair almost as Lisa, So the bear will most certainly be the biggest giveaway, However I would locate the bear first and use the hair to confirm.

Scratchy Simpsons Lego Minifigure

How to Identify Lego Scratchy

Unique Features to Identify

1. The Axe, Make sure you get the piece to the bottom of the bag and feel for them, This should be fairly easy to identify once you have your hands on it.
2. The Ear's and nose, Scratchy's head stick's out and his ear's will easily help you identify this character.

Itchy Simpsons Lego Minifigure

How to Identify Lego Itchy

Unique Features to Identify

1. The Club, Feel for the club there is nothing else like this and you should easily identify the character.
2. The Ear's, Again, no other character has ear's like this so Itchy should be relatively easy to identify.

Ralph Simpsons Lego Minifigure

How to Identify Lego Ralph

Unique Features to Identify

1. The Head, This will be small and beady, I think this will be one of the harder character's to identify in the series.
2. The Valentine's Day Card, Make sure you really feel the head because the card is the same shape as Millhouse's Biclop's book.

Nelson Simpsons Lego Minifigure

How to Identify Lego Nelson

Unique Features to Identify

1. The Head, The middle piece of hair should really help you feel this character, and then check for the two teeth.
2. The Baseball Bat, This should be easy to identify and really assist you in finding the character.

Ned Flanders Simpsons Lego Minifigure

How to Identify Lego Ned Flanders

Unique Features to Identify

1. The Toolbox, No other character has this shape and therefore you should find this easy to identify.
2. The cup, Be sure to find the toolbox first because Apu has a cup and you may mistake him for Ned Flanders.

Mr Burns Simpsons Lego Minifigure

How to Identify Lego Mr Burns

Unique Features to Identify

1. The Gold Fish Bowl, Now this will feel like a regular Lego Figure Head but if you look closely, you will see no one has a regular Lego Head. You may have to feel for this for a while, but I am sure you will be able to identify this piece if you shake the bag enough.
2. Feel for the Nuclear cylinder, This piece will be hard to identify making Mr Burns another one of those figures you will have to be really serious about finding to complete your collection.

Milhouse Simpsons Lego Minifigure

How to Identify Lego MillHouse

Unique Features to Identify

1. The Head and Blubus nose, you will have to find the head , just look at it and really concentrate on finding the nose. This is important because Millhouse has a different shaped head to Ralph.
2. The Biclops, This is square and large it will feel flat but it is similar to Ralph's so if you find this begin to check for the head straight away, remember Ralph's head is small and round.

Krusty Simpsons Lego Minifigure

How to Identify Lego Krusty

Unique Features to Identify

1. The Hair, Krusty's hair has three peaks, feel for the peaks two large and one small, try not to mistake this for Maggie's bear it should feel different because it is ridged.
2. The Pie, Find the pie, its round and has small peak's around the edges, it also has a small base underneath. If you find this check the head and hey presto, you should have Krusty.

Grampa Simpsons Lego Minifigure

How to Identify Lego Grampa Simpson

Unique Features to Identify

1. The Hair, Grampa has around seven small peaks on top of the long head, run your nail over the peaks to be sure, Plus his head is shaped like a pineapple.
2. The Newspaper, Once you have identify the Head check for the new's paper this again is similar to other Lego figures so the head will be the most identifying feature.

Chief Wiggum Simpsons Lego Minifigure

How to Identify Lego Chief Wiggum

Unique Features to Identify

1. The Hat, look at its shape it's flat on top and has a diamond style shape underneath running to the front peak of his hat.
2. The Megaphone, This should be easier to identify with its circular end and small handle, you will certainly have to shake the bag to find this piece because it's not that large.

Apu Simpsons Lego Minifigure

How to Identify Lego Apu

Unique Features to Identify

1. The Hair, Find the head and work your finger around the contour of the head, notice his hair is quite large and curved, your skills at feeling will have to be on form for Apu too.
2. The Cup, If you think you have identified the hair, then head for the cup shake and shake some more it has no handle so you are looking for a small but thick cylinder shape.

Remember, if you don't get the character you want, you could always sell them on the internet through lots of various sources.
